For research purposes: The animal being researched MUST HAVE AN ApHC NUMBER SHOWING ON THE PEDIGREE THAT IS LOWER THAN 279999. The ApHC Stud Books are not published beyond that point. If your numbers are higher than 279999, the ApHC can be reached at : (208) 882-5578. Call and ask for the numbers of the Sire and/or ApHC Dam of your animal. If the numbers are still too high ask for the numbers in the next generation, and so forth until you have numbers low enough to be researched. If there are PC or ID numbers in your pedigree the ApHC can, perhaps, give you parentage on these animals also. The CRHA Treasure Hunt is a free service to you, therefore your help in procuring these necessary numbers is greatly appreciated. Please include all available ApHC Numbers in the pedigree bracketed animals. Thank-You
